

EDMOND DE ROTHSCHILD REAL ESTATE SICAV (« ERRES ») INNOVATION IN SUSTAINABILITY

Dear investors,

Edmond de Rothschild Real Estate SICAV became the first component of the newly created Swiss Sustainable Real Estate Index (SSREI). This follows the certification by the Société Général de Surveillance (SGS) of the portfolio's evaluation based on the environmental and societal criteria of the SNBS 2.0 Building, Swiss Standard Sustainable Construction. This accomplishment is part of the deployment of the ESG policy initiated by the manager in 2018 and demonstrates the pragmatic and transparent orientation adopted to address sustainability issues.

You will find a detailed analysis of the results of this innovative approach in the ERRES 2019/20 annual report, which will be published on Monday, June 22 after the close of trading.
